Turning on Compatibility Mode for Internet Explorer

1. In Internet Explorer, Click on the **Tools - Command Bar** button. (See screen shot below)

2. Click on **Compatibility View Settings**. (See screen shots above)

3. To Add a Web page to the Compatibility View List

Type in the web page address (<u>www.twogills.com</u>) that you want to turn on Compatibility View for, and click on the **Add** button. (See screen shot below)

NOTE: The current web page address will automatically be filled in for you. Just clear it if you want to add a different address instead.

ſ	Compatibility View Settings
	Change Compatibility View Settings
I	Add this website:
ŀ	www.twogills.com Add
T	Websites you've added to Compatibility View:
	twogills.com Remove
l	V Display intranet sites in Compatibility View
	V Use Microsoft compatibility lists
	Learn more by reading the <u>Internet Explorer privacy statement</u>
	Close

NOTE: To set ALL websites to Display in Compatibility View DO NOT add a site address, just place a check in the box 'Display internet sites in Compatibility View'.

4. Click on the **Close** button. (See screen shots above)
